

# M8 x 17mm / 34mm - 30mm Angle Engine Mount

**Prod Code: 2100-GEAR-16875**

Angle Anti Vibration Mount with male - male thread

We use this angle mount in the manufacture of all of our GearGB generator range as it significantly reduces vibration in comparison straight mounts and fits all standard engines. Honda / Briggs and Stratton / Kohler / Yanmar / Hatz etc

We recomend two mounts for a single cylinder petrol engine. For Heavier V-twin engines and diesels, use four mounts.
