

SEK-10A Safety Shut-off Valve Kit

Prod Code: 3011-GEAR-867

12 VOLT LOCKOFF, 3/4" NPT (FOR ENGINES W/ OUT OIL FILTER)

Safety Shutoff Valve Kit for Existing Remote Control/Automatic Start-up. If your generator has an existing remote control or automatic start-up this kit will provide the safety feature of shutting off the fuel supply of the natural gas or propane that is free flowing through the line should the unit stop functioning at any point in time. NOTE: This kit does not make your pull start remote or automatic.

SPECIFICATIONS

Fits	Engines without oil filter
