

Honda EU32i 3.2kw Silent Generator

Prod Code: 5000-HOND1-24100

Small but mighty

The new Honda EU32i generator is incredibly versatile with high-spec features and an intelligent design that makes it easy to use, start and carry.

High output. Low emissions.

This newly developed, high-performance engine has built-in fuel-injection. It can be started with two simple steps – just turn the switch and pull the cord – and is also very fuel efficient, as it delivers an impressive amount of power whilst keeping emissions low.

Power you can rely on

Whether it's required for everyday and professional activities, or just the occasional emergency use, experience continuous performance from a highly dependable power supply that you can trust.

Increased fuel efficiency

The generator has fuel-injection to optimise fuel use, and, when engaged, the built-in Eco Throttle automatically adjusts output to provide the correct amount of power required.

Lightest and most compact in its class

The newly developed design and compact, lightweight shape means you'll find the EU32i simple to carry and move to where you need power.

Bluetooth app

A clever smartphone app uses Bluetooth to keep you connected, allowing you to monitor, operate key functions, and even stop your generator remotely

SPECIFICATIONS

Output Technology	Inverter
Type	Single Phase
Max output (W)	3200
Voltage stability (%)	+ or - 1
Output voltage (V)	230
Rated output (W)	2600
Frequency rating (Hz)	50
DC voltage (volts)	12
Power Stability	Inverter Technology®
Engine type	GX130
Type	single cylinder 4-stroke OHV air cooled
Oil capacity	0.46 litre
Starter system	recoil
Length	571mm
Width	306mm
Height	452mm
Dry weight (kg)	26.5
Guaranteed noise level (LWA)	91dB(A)
Run Time at Rated Load	3H30
Fuel tank capacity (litres)	4.6
Fuel type	Unleaded petrol
