

Honda ECT7000 7kw 3-Phase Petrol Generator

Prod Code: 5000-HOND2-65

The ECT7000 generator is designed to give you an economical, simple to use and incredibly reliable power source wherever you need it. Just like our renowned engines, this unit is engineered to withstand the harsh demands of the construction industry. The super durable Honda OHV series engine is housed within a high quality welded open frame of powder coated tubular steel for easy lifting.
