Meccalte ES16F-130 4.5kVA AVR Single Phase Alternator (j609b)

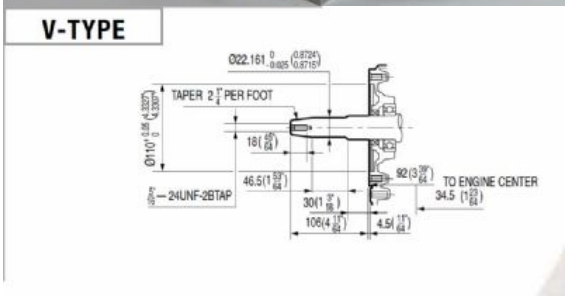

Prod Code: 5010-MECC-GA48

This unit is designed to be fitted to an engine with a 7/8 inch taper shaft (j609b coupling). Check the attached technical drawing to match against your existing coupling. If a different coupling is required, please contact us for availability

This unit can also be run via a belt a pulley with a bearing kit

For more specialist applications, a high performance range of Automatic Voltage Regulator (AVR) machines is available. The ES range is single phase AVR-controlled but designed with brushes and a slip ring to allow for good voltage regulation and improved motor starting; supply loads different than power factor 1.0 such as modern electronics or pumps.

SPECIFICATIONS

Phase	Single
RPM	3000
Voltage	115 / 230
Frequency	50Hz
Rated Output (kVA)	4.5
Power factor	1
Rated Output (kW)	4.5
Taper Fitting	j609b (7/8 inch)
