

Fly Lead 13A-16A - Blue 230v Socket Adaptor

Prod Code: 5020-FLY-274

230v fly lead socket adaptor

This single socket 230/240v fly lead enables users to connect a 16A tool or light to a standard 13A lead without the need to re-wire, saving both time and money. It is supplied with a short cable to maintain flexibility but not too long that it can be tangled.

Quick and easy adapter for 230/240v 16A equipment to attach to 13A leads
Short length cable to minimise excessive tangling
Robust Defender plug and four gang socket
25cm of 1.5mm cable
Spring hinged cover on 13A socket for maximum socket protection

SpecificationCable - 1.5mm, H05-VVF, VDE approved, low temperature
Ingress rating - IP20
Cable Standard - BSEN 50525-2-11
