

PC40H 40cm Honda Powered Plate Compactor

Prod Code: 6000-GEAR-287

The New PC range of plate compactors from GEARGB combine durability with outstanding performance. The UK build units have a fast forward speed, excellent compaction force and low hand arm vibration levels. Finished in a tough epoxy coating in striking red they add a professional look to any machine range.

Feature include;

- Low maintenance
- Fast forward travel
- Up to 25cm compaction depth
- 30% climbing ability
- 92Hz frequency
- Low handle vibration
