

SE-80XDHR Hatz 3 Inch RECOIL START Diesel Water Pump

Prod Code: 8000-HATZ-24894

Hatz Diesel 75mm Diesel Centrifugal Self-Priming Water Pump. recoil start

This unit is a heavy duty self-priming pump powered by a German manufactured Hatz 1B20 diesel engine. All units are equipped with carbon ceramic mechanical seals and light weight aluminium pump housings to assist with portability. For increased abrasion resistance, it has cast iron volute and impellor. These materials ensure maximum durability for the pumping of clear and black water as found on building sites. All models are housed within protective tubular steel, easy carry frame, and anti-vibration rubber feet. Hose couplings, washers, clips and strainers are supplied as standard.

SPECIFICATIONS

| | |
|------------------------------|-------------|
| Engine | Hatz 1B20 |
| Max output (litres/min) | 900 |
| Inlet/outlet diameter (Inch) | 3 |
| Total head (metres) | 23 |
| Suction head (metres) | 7 |
| Pressure (bars) | 2.3 |
| Dry Weight (kg) | 58 |
| Starter | Recoil only |
| Wheel Kit | Included |
| Oil Alert | No |
| Fuel Tank Capacity | 3L |
| Length (mm) | 710 |
| Width (mm) | 700 |
| Height (mm) | 800 |
