

KOSHIN SERH-50B 2" High Pressure Water Pump

Prod Code: 8000-HOND1-24337

The SERH-50B offers exceptional high pressure performance with lower flow, ideal for sprinkling, jetting, long-hose irrigation or fire fighting applications. The combination of a powerful 4-stroke engine and larger diameter impeller means it is capable of producing 5.5 bars of pressure with up to 55m headlift. The pump features a lightweight, corrosion-resistant aluminium body, durable cast iron volute and impeller and a carbon ceramic mechanical seal. A quality welded tubular steel frame provides added durability with easy carrying. Add to this the super reliable, easy starting engine and tool-free hose couplings and you've got a pump that allows you to concentrate on the job in hand.

SPECIFICATIONS

Engine	Honda GX160
Max output (litres/min)	400
Debris size capacity (mm)	3
Inlet/outlet diameter (mm)	50
Total head (metres)	60
Suction head (metres)	7
Pressure (bars)	6.0
Dry Weight (kg)	38
Fuel tank capacity (litre)	3.3
Starter	recoil
Length (mm)	380
Width (mm)	620
Height (mm)	533
Petrol Consumption	2.07L/H
