

Subaru 7HP EX21 Tapered Shaft Engine

Prod Code: 3000-HOND-765

3/4" Tapered Shaft (Generator Spec) Oil Alert Petrol Engine

The fully Japanese manufactured Subaru EX Premium range of engines are easy to install and offer maximum efficiency, high performance and impressive power with minimal noise and low emissions. With 10 models ranging from 4.5 to 14 horsepower, including a specially tailored all-season engine, EX Series engines are ideal for use in soil compactors, pressure washers, generators, water pumps, air compressors, log splitters, lawn and turf seeders and chippers/shredders. In the recreational arena, EX industrial engines are in go-karts, and homeowners will find Subaru powering tillers, edgers, reel mowers, snow throwers and blowers/vacuums.

Engine features:

- OHC chain driven design enhances combustion efficiency and 33 percent fewer moving valve train parts than overhead valve designs
- The overhead cam design maximizes cooling area and improves cooling performance. It also allows for 360-degree airflow around both the exhaust and intake valve stem and equates to noise levels that are a full two decibels below competitive models.
- Easy starting with an automatic decompression system and an easy-to-grip soft recoil starter handle
- High quality materials and purpose-built components which ensure reliable, long-term use
- Meets world's most stringent environmental legislation
- Low fuel and oil consumption

SPECIFICATIONS

Engine Type	Single cylinder Chain-Driven OHC 4-stroke air-cooled
Country of Manufacture	Japan
Displacement (cc)	211
Output	7HP
Cylinder	Cast Iron Sleeve
Bore (mm)	67.0
Stroke (mm)	60.0
Fuel Tank Capacity (l)	3.6
Oil Capacity (l)	0.6
Dry Weight (kg)	16
Dimensions Length (mm)	311
Dimensions Width (mm)	366
Dimensions Height (mm)	335

V-type
