LPG Dual Fuel 2 x Honda EU22i 4.4kw LINKED Quiet Inverter Generators

Prod Code: 5000-HOND2-19036

• 2 x FREE GENUINE HONDA 600ML BOTTLES OF OIL. WORTH £6.00 EACH

The quietest and most portable 4.4kW power supply on the market. Dual generator LPG propane gas / Petrol Dual fuel Unit. Up to 50% reduction in fuel costs and CO2 emissions when operating on LPG Propane

This assembly offers the user the ability to operate two generators simultaneously from one LPG bottle. During operation of two generators, if then only one generator is required, simply disconnect the quick release coupling from one of the units. This will stop that generator and the other will continue to run. When both are required again, simply reconnect the quick release coupling and start the generator in the normal way.

Compact, quiet, lightweight and reliable. The Honda EU range has the ability to power even the most sensitive electronic equipment by means of inverter controlled output.

The Honda EU22i delivers 2200 watts of portable, clean and low noise power. It's super quiet operation, means it is the perfect leisure generator, whilst also being suited to proffesional applications. This compact unit is powerful enough for all kinds of tasks, whether you are abroad in a motorhome or caravan, in need of a emergency back up when theres a power cut, or a market trader in need of continuous super silent power supply.

The enclosed suitcase type casing keeps noise down to just 52 decibels. And the unique Ecothrottle means the engine only runs as fast as the load demands, ensuring maximum fuel efficiency and noise reduction. Honda's engine auto-decompression makes the pull start amongst the easiest of all generators and rubber feet take out any buzzing vibration to the floor.

* also available in 'petrol only' version
* also available without parallel cable to power two seperate 2.2kW loads
* Other LPG options are available with these generators

- Generators are setup with door mount LPG kits. This enables easier starting
- LPG kit is setup for one LPG bottle (as pictured). However, we can setup this up to fit two bottles on request (with two LPG bottle regulators), with no extra charge.

SPECIFICATIONS

Type	Portable
Max output (W)	4400
Voltage stability (%)	+ or - 1
Output voltage (V)	230
Rated output (W)	3600
Frequency rating (Hz)	50
DC voltage (volts)	12
Power Stability	Inverter Technology®
DC current per unit (amps)	8
Engine type	GXR120
Type	single cylinder 4-stroke OHV air cooled
Oil capacity per unit	0.4 litre with Oil Alert®
Starter system	Recoil
Length per unit (mm)	510
Width per unit (mm)	290
Height per unit (mm)	425
Dry weight per unit (kg)	21
Noise Level (1/4 load) (dB(a))	52
Guaranteed sound power level (dB(A))	89
Petrol Run Time up to (hrs)	10
Fuel tank capacity per unit (litres)	3.6
Petrol Usage at 75% per unit (L/H)	0.93
LPG Propane Usage at 75% per unit (Kg/H)	0.5
