## Honda EM5500CXS 5.5kw Electric Start AVR Petrol Generator

Prod Code: 5000-HOND2-62

The EM5500 delivers clean power with extended run time, making it ideal for a wide range of demanding applications from home equipment backup to powering equipment out in the field. Smooth power is achieved with AVR technology maintaining a constant output voltage, compensating for fl uctuations when the equipment starts up or the load changes. This helps provide a stable power source vital for running sensitive electronic devices safely. Multiple outlet sockets with switchable voltage allow you to run different appliances and the large fuel tank, effi cient 4-stroke engine and Honda's EcoThrottle maximise running time.

| SPECIFICATIONS                 |   |
|--------------------------------|---|
| Fuel type                      | Unleaded petrol                         |
| Primary usage                  | Professional Use                        |
| Туре                           | Multi-purpose                           |
| Max output (W)                 | 5500                                    |
| Output voltage (V)             | 115/230                                 |
| 115v Socket Configuration      | 1x32A and 1x16A                         |
| 230v Socket Configuration      | 1x32A                                   |
| Rated output (W)               | 5000                                    |
| DC voltage (volts)             | 12                                      |
| Power Stability                | AVR Output®                             |
| DC current (amps)              | 8.0                                     |
| Engine type                    | GX390                                   |
| Туре                           | single cylinder 4-stroke OHV air cooled |
| Oil capacity                   | 1.1 litre with Oil Alert®               |
| Starter system                 | electric/recoil                         |
| Length (mm)                    | 680                                     |
| Width (mm)                     | 530                                     |
| Height (mm)                    | 545                                     |
| Dry weight (kg)                | 96                                      |
| Noise Level (1/4 load) (dB(a)) | 70                                      |
| Wheel Kit                      | Included                                |
| Run Time at Rated Load         | 8h                                      |
| Fuel tank capacity (litres)    | 25                                      |
| Petrol Consumption at rated    | 3.1L/H                                  |
| Options                        | LPG Dual Fuel Conversion                |
