Cellmaster 16kVA 3-Phase LPG / NG Generator

Prod Code: 5000-SUTT-19586

The CELLMASTER LPG Generators have security at heart, and uses a locking bar to secure all four access points allowing the generator to be fully protected using a single padlock. Enhanced acoustic attenuation makes the CELLMASTER a perfect addition to industrial, commercial, and residential applications.

- 1500 RPM Super silent
- Ultra-low vibration
- 3 or single phase
- Built in AMF
- Single locking point

Cellmaster machines are three phase 400/230V 50Hz. Other phase & voltage configurations are available

SPECIFICATIONS

Continuous Rating Output (kVA)	16
Continuous Rating Output (kW)	12.8
Phase	Three
Engine	Zenith Z416
RPM	1500
Frequency	50Hz
Dimensions (mm)	L1600 W800 H1300
Dry Weight	580kg
Sound Level at 7M	<60 dBA
Consumption at 75%	3.3L/H
