

Meccalte ES20FS-160 9.5kVA AVR Single Phase Alternator (j609b)

Prod Code: 5010-MECC-GA10

This unit is designed to be fitted to an engine with a 7/8 inch taper shaft (j609b coupling). Check the attached technical drawing to match against your existing coupling. If a different coupling is required, please contact us for availability

This unit can also be run via a belt a pulley with a bearing kit

For more specialist applications, a high performance range of Automatic Voltage Regulator (AVR) machines is available. The ES range is single phase AVR-controlled but designed with brushes and a slip ring to allow for good voltage regulation and improved motor starting; supply loads different than power factor 1.0 such as modern electronics or pumps.

SPECIFICATIONS

| | |
|--------------------|------------------|
| Phase | Single |
| RPM | 3000 |
| Voltage | 115 / 230 |
| Frequency | 50Hz |
| Rated Output (kVA) | 9.5 |
| Power factor | 1 |
| Rated Output (kW) | 9.5 |
| Taper Fitting | j609b (7/8 inch) |
