

Sincro SW2-F300TDC 300AMP DC 3-Phase Welder Generator Alternator

Prod Code: 5010-SINC-19589

Sincro 2-Pole DC Brushless 4 in 1 Welder Generator Alternator

Four functions in one alternator
AC Generator - DC Welder - Jump Starter - Battery Charger

- Protection: IP23
- Weldable electrodes: All types, including basic and cellulosic
- Supplied with autoresettable thermal breaker against overload
- Can also be used as single phase and three phase alternator

This unit is designed to be fitted to a petrol engine of at least 20 HP or a diesel engine of at least 17hp.

Petrol eg. Honda GX690

Diesel eg. Kubota D1105 / Ruggerini RD210

Available coupling types - IM B34, IM B35 cone 30/38, J609b, SAE
If you are unsure of which coupling type you need please contact us

SPECIFICATIONS

Weld Current (Amps)	300DC
Duty Cycle	60% @ 250Amps
Duty Cycle	35% @ 300Amps
230v output (Kw)	4
400v output (Kw)	10
Rheostat Variable Current Control	Yes
Arc Force Control	Yes
RPM	3000
Weight	81kg
Dimensions (L x W x H)	47 x 25.4 x 39.7cm
Additional Options	Cable for remote current control
Coupling	j609b (IMB35)
