

Sincro ARC300 MDC 300AMP DC Welder Generator Alternator (single phase) (SAE DISC COUPLING)

Prod Code: 5010-SINC-22995

Sincro 2-Pole DC Brushless 1 Phase Welder Generator Alternator

- Protection: IP23
- Weldable electrodes: All types, including basic and cellosic
- Supplied with autoresettable thermal breaker against overload
- Can also be used as single phase alternator

with Panel WM04 including:

- 2 CEE 230 (2P+E) 16A
- 2 Single phase thermal protection
- 2-Pole magneto-thermic switch + IP65 cover
- Hour-counter

This unit is designed to be fitted to a petrol engine of at least 20 HP

Petrol eg. Honda GX690 or iGX800
Diesel eg. Kubota D1105 / Ruggerini RD210

Available coupling types - IM B34, IM B35 cone 30/38, J609b, SAE
If you are unsure of which coupling type you need please contact us

SPECIFICATIONS

Weld Current (Amps)	300DC
Duty Cycle	60% @ 250Amps
Duty Cycle	35% @ 300Amps
230v output (Kw)	6
Sockets	2 x 16A 230v
Current Control	Stepped
RPM	3000
Weight	85kg
Dimensions (L x W x H)	47 x 25.4 x 39.7cm
Coupling type	SAE (DISC COUPLING)
Additional Option	fitted with Earth leakage breaker
