

# AA37 35mm Vibrating Poker (Premium)

**Prod Code: 6020-HUSQ-353**

The original mechanical poker has been refined over the years to become the reliable, easy-to-use and very versatile product it is today, available with a selection of drive units to suit most work sites. The AA series of pokers is the Atlas Copco top-of-the range mechanical pokers featuring high centrifugal force and rapid acceleration for the best results

## Features & benefits

- 7 m long hose
- Hardened steel parts
- Flexible shaft inside a rubber hose protected by steel strip.
- Hose stiffener on large diameters
- Genuine coupling.
- Greased shaft.
- Higher centrifugal force than the AZ poker range

## Applications

Medium & low slump concrete - slabs - forms - precast - slump test

## SPECIFICATIONS

Radius of action	up to 10 x diameter
Tube diameter	39 mm
Hose length	6 m
Frequency in concrete (vpm)	12000
Centrifugal Force N	2000
Tube length	366 mm
Weight	19 kg
Amplitude	0.55 mm
Vibration value	1.56 m/s
Noise level	68 dB(A)
