SE-50XDHES Hatz 2 Inch ELEC START Diesel Water Pump

Prod Code: 8000-HATZ-22698

Hatz Diesel 50mm Diesel Centrifugal Water Pump. Key start and recoil start

This unit is a heavy duty self-priming pump powered by a German manufactured HAtz 1B20 diesel engine. All units are equipped with carbon ceramic mechanical seals and light weight aluminium pump housings to assist with portability. For increased abrasion resistance, it has cast iron volute and impellor. These materials ensure maximum durability for the pumping of clear and black water as found on building sites. All models are housed within protective tubular steel, easy carry frame, and anti-vibration rubber feet. Hose couplings, washers, clips and strainers are supplied as standard.

SPECIFICATIONS

Engine	Hatz 1B20
Max output (litres/min)	560
Inlet/outlet diameter (mm)	50
Total head (metres)	23
Suction head (metres)	7
Pressure (bars)	2.3
Dry Weight (kg)	65
Starter	Recoil and Electric
Wheel Kit	Included
Oil Alert	No
Length (mm)	710
Width (mm)	700
Height (mm)	800
