

Honda WB30 3 Inch Water Pump

Prod Code: 8000-HOND1-144

• FREE GENUINE HONDA 600ML BOTTLE OF OIL. WORTH £6.00

Whether it's site water containing silt and sand or plain freshwater, the WB30 pumps are ideal for shifting it fast. Premium performance and durability comes from the pairing of Honda's industrial grade OHV 4-stroke engines with a high quality abrasion resistant cast iron volute and impeller. The 3" WB30 is capable of moving a massive 1100 litres a minute and will pump up to 138,000 litres on a single tankful of fuel. The build quality doesn't just include the pump either. These tried and tested units are mounted on vibration-reducing rubber dampers to ensure smoother running and maximise the life of the heavy duty tubular steel frame

SPECIFICATIONS

Engine	Honda GX160
Max output (litres/min)	1100
Debris size capacity (mm)	6
Inlet/outlet diameter (mm)	80
Total head (metres)	28
Suction head (metres)	8
Pressure (bars)	2.7
Dry Weight (kg)	27
Fuel tank capacity (litre)	3.3
Starter	recoil
Length (mm)	510
Width (mm)	385
Height (mm)	455
Petrol Consumption	1.63 L/H
