Prod Code: 8000-TSUR-22639

SDMO 3 INCH Honda Petrol Trash Centrifugal Water Pump

For applications where water contains solids in suspension, centrifugal trash pumps are recommended. This is a heavy duty trash pump of traditional design and can handle solids of up to 27mm. The pump housings incorporate inspection covers, which can be quickly released by undoing two hand nuts, thus allowing ready access to the impeller. All SDMO petrol pumps are powered by Honda engines, are self-priming and are housed within protective tubular steel, easy carry frames, and anti-vibration rubber feet.

All models are fitted with silicon carbide and ceramic mechanical seals and are supplied with hose couplings, washers, clips and strainers.
